Call Sign E150099  
IBFS File No. SES-LIC-20150205-00064

Dear Mr. Lindsay:

On February 5, 2015, The Boeing Company (Boeing) filed the above-captioned application for an earth station license for flight test operations. We dismiss the application without prejudice to re-filing.<sup>1</sup>

Section 25.112(a) of the Commission's rules, 47 C.F.R. § 25.112(a), requires the Commission to return as unacceptable for filing any earth station application that is not substantially complete, contains internal inconsistencies, or does not substantially comply with the Commission's rules. Boeing did not provide a response to Item E21 of Schedule B, which requires applicants to list the proposed points of communication. *See* 47 C.F.R. § 25.130 (a)(1). This deficiency renders the application incomplete and subject to dismissal.

Accordingly, pursuant to Section 25.112(a)(1) of the Commission's rules, 47 C.F.R. § 25.112(a)(1), and Section 0.261 of the Commission's rules, 47 C.F.R. § 0.261, we dismiss the application without prejudice to re-filing.

Sincerely,

Paul E. Blais  
Chief, Systems Analysis Branch  
Satellite Division  
International Bureau

---

<sup>1</sup> If The Boeing Company re-files an application identical to the one dismissed, with the exception of the corrected information, it need not pay an additional application fee. *See* 47 C.F.R. § 1.1111(d).
